Your Disposable Camera App

Sell Your Own Branded Disposable
Camera App To Event Clients

INTRODUCTION

PROBLEM & SOLUTION

Regardless of whether there's a professional photographer at an event, organisers know their guests always capture more angles, moments & memories in today's world of smartphones.

However,
this is what happens...

CURRENT EVENTS

EVENTS WITH THE APP

Now, you can sell your own branded app to your clients to resolve their post-event frustrations, **which will be shared with their guests, and even family & friends...**

Free Brand Marketing

HOW IT WORKS

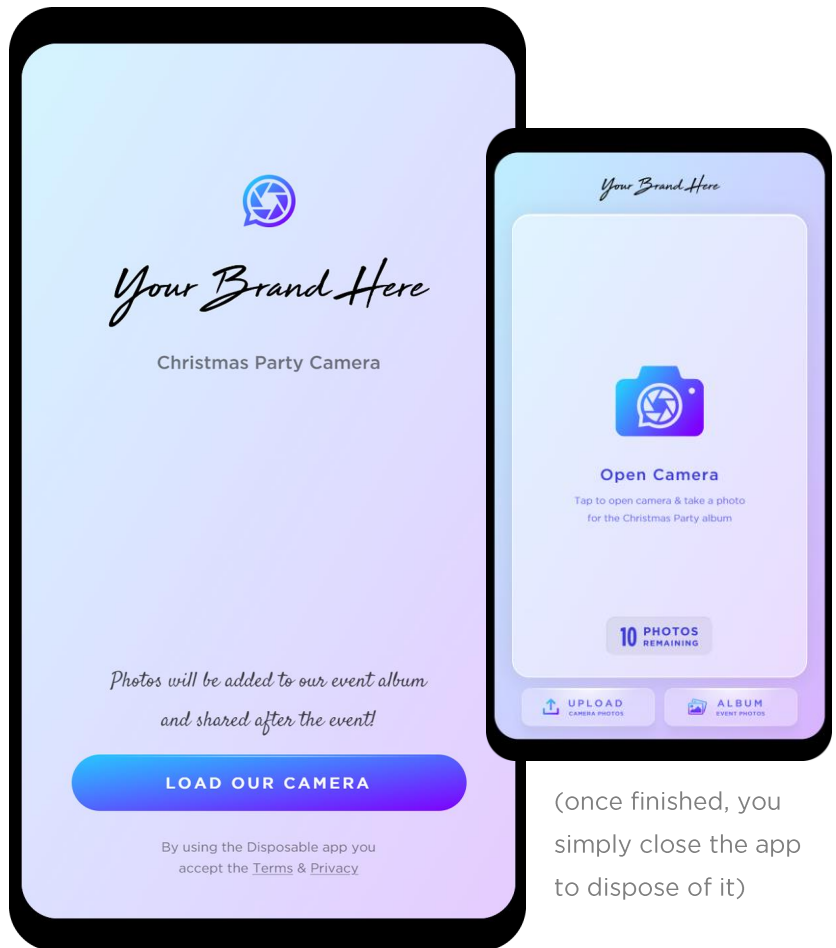

1. Scan

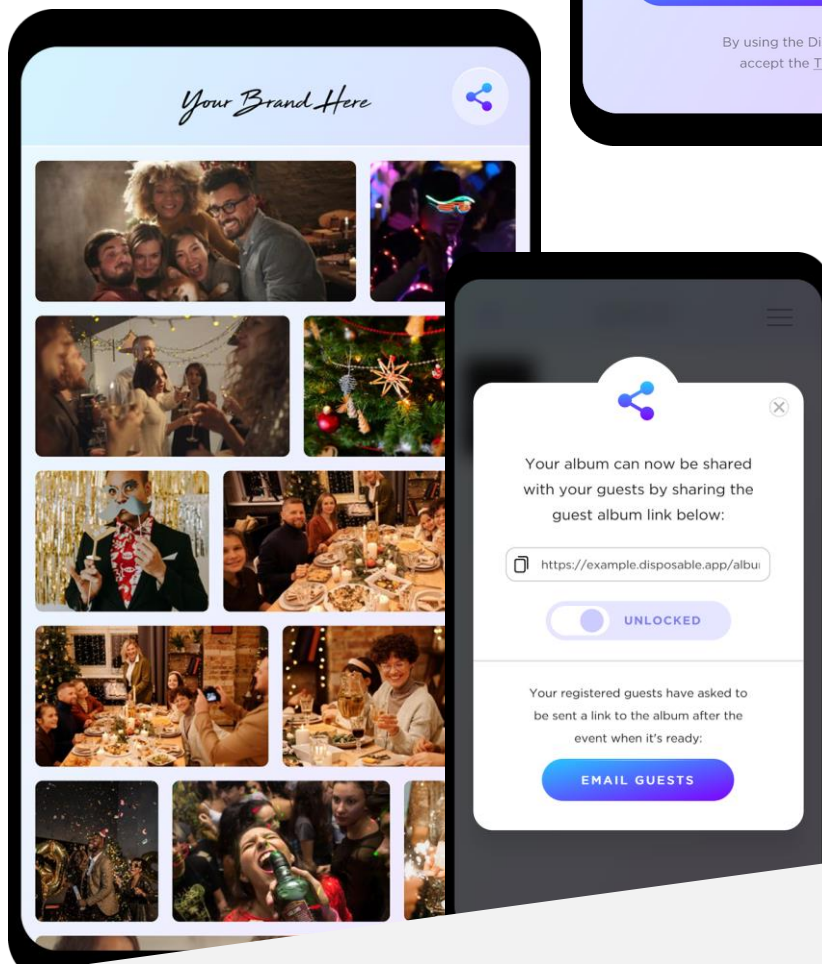

Guests scan a QR code that has been placed around the event venue.

2. Shoot

Your branded camera app loads without any downloads required. All photos guests take are captured in one event album.

(once finished, you simply close the app to dispose of it)

3. Share

After the event, you can share the branded album with your client and all guests in a simple click.

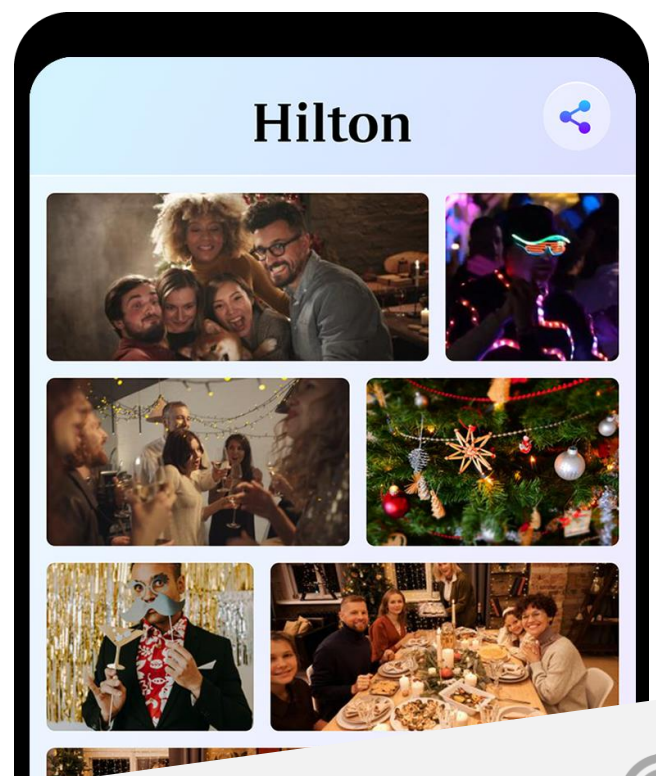

Branded App Example

The entire app is branded as your own, building your reputation for modern experiences.

All of your client's guests are further reminded of your brand after the event when they receive the album, which they can further share with family & friends. It's free marketing.

CUSTOMERS

”

Genius... such a good idea, I'm always asking people to send me the photos they got from the night before.

BENEFITS

MODERN SERVICE

COMPETITIVE ADVANTAGE

With an offering that resolves event client & event guest frustrations that competitors currently do not provide, you're one step ahead of your competition.

RETURNING CLIENTS

GREAT LASTING IMPRESSION

Your clients will be reminded of you every time they celebrate & relive their experience with the album, increasing their chances of re-booking.

NEW CLIENTS

EXPONENTIAL MARKETING

Your branded app will not only be seen by every guest at & after the event, but by their family & friends too when they share the event photos.

EVENT SETUP

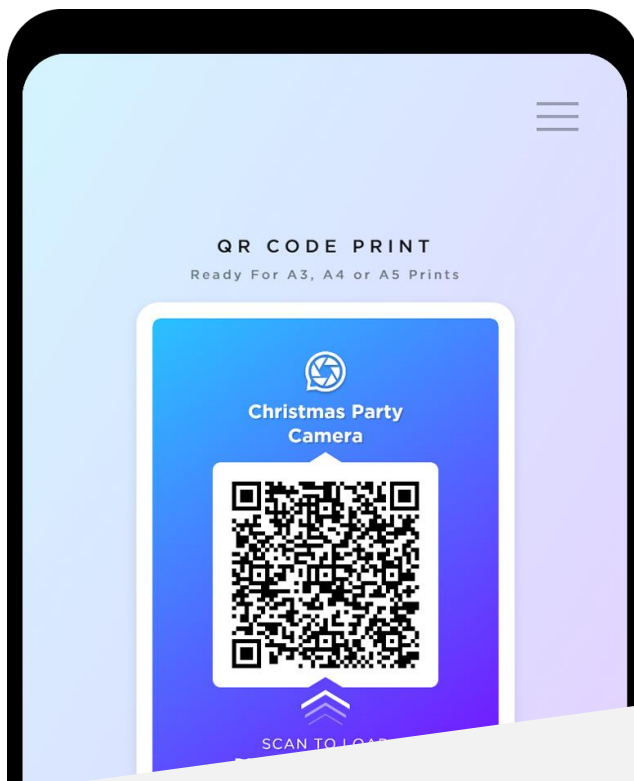

1. Create Event

Create the event from your dashboard, and upgrade it to a brandable 'Disposable Black' event app.

2. Upload Logo

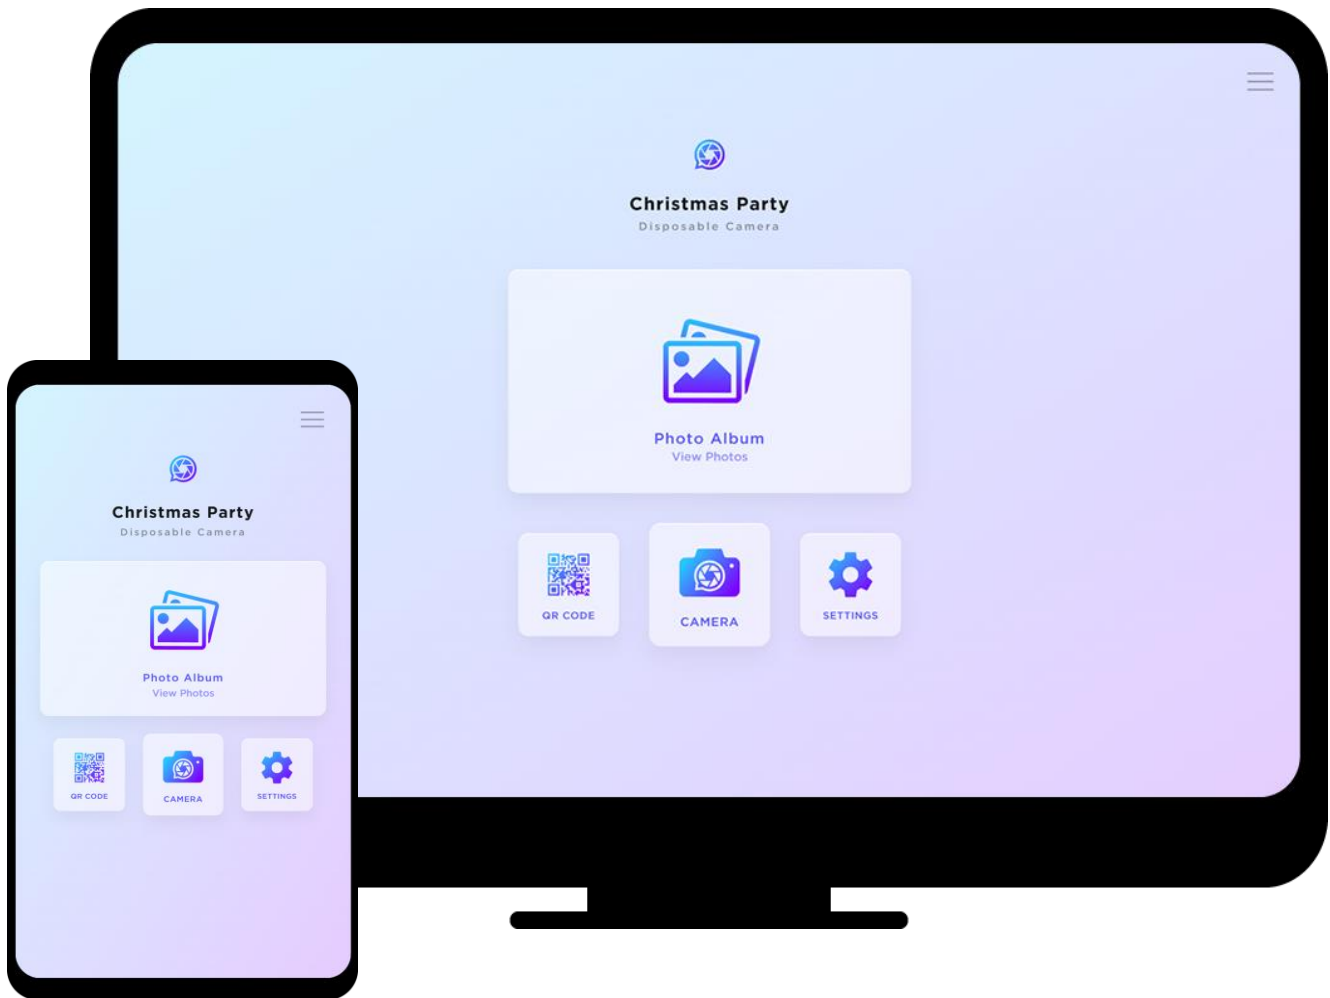

In event settings, simply upload your company logo, and it will appear on the camera and album. This will save as the default logo for all events.

3. Print QR Codes

Download & print the QR code, then simply place the QR codes around your client's event venue.

Mobile & Desktop Friendly

You can create and manage events from any device, from anywhere, all via your private online dashboard.

RESELLER COSTS

ABSOLUTELY
NO MONTHLY FEES

\$99.99 **per event** is the only cost,
with no monthly fees at all.

That covers all server costs, lifetime photo storage fees,
ongoing maintenance and all future updates.

You can resell the service to your clients at whatever
price works for your clientele and business model.

Your Product. Your Clients. Your Pricing.
